

Dear Prospective M Tech (EE) student,

You must have already received the email from the IISC Admissions Unit, asking you to come to IISC on Monday, May 14th, to take your test and interview for possible admission to the M Tech (EE) program in our Department. I would like to give you some clarity about the logistics and methodology of the selection process.

As far as the EE Department is concerned, all the students who have been short-listed based on their GATE score, will both write the technical test and be interviewed. The final selection will be based on the combined performance.

Interviews will be conducted on all three days (May 14 – 16) from 9:30 am till late evening (depending upon the number of candidates) except when the EE technical test is being conducted. In case you have also been called for test and interview in another department, your interview will be scheduled in such a manner that it does not clash with your test and/or interview schedule in the other departments. You will be interviewed by one of the three committees, conducting interviews in parallel and all within the EE department.

The EE technical test is proposed to be conducted between 9 am and 10:30 am on Tuesday, May 15, in the II Floor of the EE Department. **Note that this test will be conducted only once and for all applicants to the regular MTech (EE) programme.** The test syllabus will be the same as the EE GATE syllabus. Soon after the test, one of the EE faculty members will address you for some 10-15 minutes. The interviews will continue after this.

The schedule for written test, if any, of all departments are already given in the IISC website:
<https://iisc.ac.in/important-dates/>

If, for any reason, you are not able to attend the test and interview, kindly inform us by sending an email to chair.ee@iisc.ac.in

Best wishes for your aspirations and a bright technical career,

A G Ramakrishnan
Chairman, EE
